Totals	245	9,256	25,076	278	1,824	5,285	6,960

The highest number of fatal collisions occurred in August, while December had the highest number of total collisions. Collisions occurring in the winter months are more likely to be attributed to severe weather such as ice and snow. However, these collisions tend to be less severe, as people generally slow down and are more cautious when driving in adverse weather conditions.
